

# SION AGHAJANI

CYBER SECURITY ENGINEER

- Yerevan, Armenia
- +37495215527
- sionaghajani12@gmail.com

## ABOUT ME

As a skilled and dedicated Cybersecurity Engineer, my expertise lies in the Penetration Testing. My extensive background in information security and network architecture forms the foundation of my approach to securing digital infrastructures. I am adept at employing advanced penetration testing methodologies to identify and mitigate potential threats, ensuring robust security measures are in place to protect vital systems. My commitment to excellence in cybersecurity is unwavering, as I continuously strive to fortify our digital landscape against ever-evolving risks.

## EDUCATION

- BACHELOR OF TECHNOLOGY**  
  
NATIONAL POLYTECHNIC UNIVERSITY OF ARMENIA, YEREVAN  
2022
  - Mastered cybersecurity & data protection
  - Achieved academic excellence in tech studies
  - BS in Information Security

## SKILLS

- Linux system administration
- Exploitation Scripts
- Python (Programming Language)
- Vulnerability Scanning
- Penetration Testing
- Windows Servers setup and configuration
- Security Administration
- Security Information And Event Management (SIEM)
- Network engineer
- Ethical Hacking
- Python and Golang Scripting
- DevOps
- DevSecOps
- Automations with Python and Golang
- SIEM Setup
- Honeypot setup and configuration
- Firewall Setup and configuration

## LANGUAGES

- Armenian
- English
- Farsi

## WORK EXPERIENCE

- CUSTOMER SERVICE | JAN 2020 - NOV 2021**  
  
DIGITECH LLC, YEREVAN
  - Boosted client retention by 20%
  - Upsold products, growing sales 15%
  - Mastered 3 CRM platforms
  - Trained 25+ new hires
- INFORMATION SECURITY ADMINISTRATION | NOV 2021 - NOV 2022**  
  
INECOBANK CJSC, YEREVAN
  - Spearheaded Data Loss Prevention (DLP) strategies by configuring and monitoring email systems to safeguard sensitive information.
  - Optimized security posture through meticulous configuration and analysis of messaging gateways.
  - Conducted comprehensive audits to ensure compliance and identify potential security vulnerabilities.
  - Fortified network defenses by implementing firewall configurations suited to organizational needs.
  - Enhanced threat detection capabilities by monitoring network traffic for suspicious activities.
  - Elevated organizational security awareness by developing and delivering targeted employee security training programs.
- CYBERSECURITY ENGINEER | NOV 2022 - FEB 2023**  
  
SOFTCONSTRUCT LLC, YEREVAN
  - Proficient in System Administration across Linux, Windows, and Mac OS platforms.
  - Expert in Firewall Configuration for network security.
  - Skilled in comprehensive Network Configuration and management.
  - Experienced in Nessus Configuration for effective vulnerability scanning and analysis.
  - Adept in configuring Privileged Access Management to safeguard critical assets.
  - Conducted thorough Penetration Testing to identify and mitigate security risks.
  - Specialized in SIEM Configuration and analysis, utilizing tools like Wazuh, Graylog, and QRadar SIEM.
- CYBERSECURITY ENGINEER | FEB 2023 - PRESENT**  
  
HUMANIZE LLC, YEREVAN
  - Extensive Penetration Testing to uncover and address system weaknesses.
  - Customized and deployed over 30 Honeypot solutions to diverse organizational requirements for proactive threat detection.
  - Enhanced security posture through strategic Network Configuration and protocol implementation.
  - Utilized Threat Intelligence analysis for predictive cyber defense strategies.
  - Applied Ethical Hacking methodologies to reinforce system security.
  - Crafted specialized Payload and Exploitation Scripts meeting unique security challenges.
  - Employed Automation to optimize cybersecurity operations, integrating DevOps and DevSecOps practices.

## COURSES

- NETWORK DEFENSE | SEP 2023 - NOV 2023**  
  
EC-COUNCIL
- API SECURITY FUNDAMENTALS | JUN 2023 - JUN 2023**  
  
APISEC UNIVERSITY
- LINUX NETWORKING AND TROUBLESHOOTING | DEC 2022 - JAN 2023**  
  
A CLOUD GURU
- CYBERSECURITY ESSENTIALS | OCT 2022 - JAN 2023**  
  
CISCO
- NETWORK DEFENSE | JUL 2021 - NOV 2021**  
  
CISCO
- NETWORKING ESSENTIALS | JUN 2022 - JUL 2022**  
  
CISCO
